Alumni contributing to the development of the Department

Our Alumni have contributed to the department in various ways.

In order to enrich the knowledge of our students and enhance practical exposure, our alumni are continuously in touch with the department for providing industry standard projects to final year students. They disseminate the technical information of required software tools and advanced/professional subjects.

Our Alumni are a good resource from whom our students learn about career and job opportunities, which helps them to either secure suitable employment/profession or pursue higher studies. They also update us with the latest trends and expectations of the industries from the employees, which helps our students to prepare themselves to face the interviews.

Contributions are also in the form of donation of standard books to the department library and cash prize.

Our alumni give us appropriate suggestions for framing the syllabus, so that the curriculum provided meets the present day industry requirements. This also helps the department to elevate the professional status and to be on par with the industry standards.
